

Craig Baldwin

I'm a print and web designer, able to work under pressure, as part of a team or working solo organising my own work load keeping on top of my work flow. I'm able to design layouts, posters, magazines and anything else that needs to be laid out in InDesign and printed. I can take a website design or make my and code it into a functioning website with my HTML and CSS skills, I also have mobile site development experience. I'm quick to adapt and learn.
